

Christie FHD551-X

High definition displays, extremely low operating costs – a perfect combination

If you're looking for a high definition video wall without the high prices, look no further. Our Christie FHD551-X is the perfect tiled LCD solution for your control room, out-of-home advertising or event production needs. This full HD resolution, virtually seamless flat panel display is energy efficient with LED backlighting and high pixel density. That means images look sharp at any distance, and you convey your information with controlled brightness more suitable for an indoor environment.

Then there's the streamlined package. Significantly thinner than conventional cubes, the Christie FHD551-X flat panel will save you space *and* money. Imagine the possibilities. Our turnkey solution can also provide the support you need – from mounting brackets, floor stands or frame and pedestal structural support to an entire range of TVC controllers, Vista processors and media servers to help you create your large format display. And with the backing of Christie's expert service and technical support teams, you have peace of mind. So consider a comprehensive solution that works for your business. Save time, energy and money with the Christie FHD551-X.
